

Natural asset inventories project Expressions of interest form

The expression of interest is non-binding on all parties. MNAI will proceed with an inventories initiative subject to available resources.

Name of local government

Address

Name of primary contact

Email

Telephone

If this expression of interest is for multiple local governments in the same watershed please ensure that each local government fills out a form, and create the linkage via your response to question 8.

- 1. How does your local government currently conceptualise and manage natural assets?
If there are specific references to natural assets in official plans, or strategies/policies please note these.**

- 2. What do you hope to achieve by developing a natural asset inventory?**

- 3. Do you face issues or challenges in which natural asset management may be able to play a role? [Examples: service delivery challenges such as flooding; weighing options for capital plans; supporting decisions related to a particular development; developing stormwater management plans].**
- 4. What are the threats / risks to the condition of your natural assets (if known)?**
- 5. What are the highest priority municipal services that your local government receives from natural assets?**
- 6. How would you describe your organization's current asset management systems ?**
- 7. Once you have completed a natural asset inventory, do you wish progress to other stages of natural asset management?**
- 8. What current corporate priorities would a natural asset inventory link to?**

9. If selected, can you commit to (a) providing the required data in the [MNAI data checklist form](#) (b) assigning a project focal point who can work with MNAI on the project, and (c) paying \$2500?

10. What is your local government's level of interest in training municipal staff in natural asset management?

11. If you are applying together with other local governments in a single watershed, please note their names, and your rationale for a collaborative undertaking.

12. Would you have Council and/or Chief Administrative Officer-level support for undertaking an inventory?

13. What climate change related risks does your community face?

Please add below any other information you wish to share.
